# AN IMPROVED DEMAND

MORE CHEERFUL SENTIMENT PRE-VAILING ON STOCK EXCHANGE.

Adjournment of Congress Hailed with Delight by Speculators-Local Markets Quiet and Firm.

At New York yesterday money on call was easy at 1%@2 per cent.; last loan, 2; closed at 2 per cent.

Prime mercantile paper, 4651/2 per cent. Sterling exchange was firm, with actual business in bankers' bills at \$4.881/2 for demand and \$4.8744.871/2 for sixty days; posted rates, \$4.8874.88% and \$4.8974.89%; commer-

cial bills, \$4.86%. Silver certificates, 68% 260c; bar silver, 681/c. At London bar silver closed at 31 5-16d per ounce.

Total sales of stocks were 185,817 shares, Including: American Sugar, 45,700 shares; Burlington & Quincy, 13,000; Distillers, 34,-000; Louisville & Nashville, 10,200; Manhattan, 1,700; Missouri Pacific, 4,800; Northern Padific certificates, firsts, assessment paid, 4,800; Reading firsts, assessment paid, 4,-300; Rock Island, 4,266; St. Paul, 28,300; Tennessee Coal and Iron, 5,500.

Though considerably less active than Wednesday, the stock market yesterday was firm throughout and a decidedly more cheerful sentiment prevailed. The factors governing the market included the anticiis of the adjournment of Congress the absence thus far of evconfirming the estimates of shipments of gold

to Europe on Saturday. The fact that London did not participate in the scare that had characterized the market Wednesday exerted a favorable influence on the opening prices yesterday, and the encouraging feature of the government crop report also contributed toward improvement. The initial quotations were sharply above the previous day's closing figures, but after the first few minutes of business reactions occurred on realizations of profits. After a brief interval, however, the execution of liberal purchasing orders by commission houses and covering of shorts put out Wednesday caused a vigorous resumption of the upward movement. The im-provement extended to all of the leading ares. London was noted to be a seller on balance. The advances in prices were progressive, and although less activity was nents were quite marked and the extreme high points were reached at the close. Business was much better distributed than for some time past, and large blocks of some of the speculative stocks changed hands, the specialties receiving unusual attention. The grangers and Southwestern shares were most in demand, being stimulated by the crop advices indicating highly improved conditions in cotton and spring wheat. The gains extended to 1@2 per cent. in the active list, but few declines occurred in some of the usually neglected stocks. Illinois Steel fell to 60, as against 68%, the last preceding sale, being ostenst-bly influenced by unsatisfactory trade con-ditions. Iowa Central preferred receded 2 per cent. to 32, but later recovered to 33%. Railway and miscellaneous bonds sympa-

thized with the improving tendency in stocks and a resumption of activity in Reading issues occurred. The aggregate sales were \$1,228,000. The principal advances were: Cincinnati, Hamilton & Dayon four and one-halfs, 2 per cent.; Chicago Northern Pacific firsts, trust receipts, 4: Texas & Pacific seconds and Wisconsin Central firsts, trust receipts, 14, and Lehigh Valley Terminal firsts, Eric generals, Oregon Improvement fives, trust receipts, Chicago & Eastern Illinois fives, Des Moines & Fort Dodge firsts and Reading second incomes, 1 per cent. There were a few declines, including Union Pacific, Denver & Gulf firsts, 3, and Missouri Pacific sols, 2 per cent.

actions of \$81,500. The following table, prepared by L. W. Lewis, 13 Board of Trade, shows the range of quota-

#### LOCAL GRAIN AND PRODUCE. Trade Hardly as Active, with Few

Fluctuations in Values.

Not so much activity was noticeable in the wholesale streets yesterday as in the preceding days of the week. On Commission row, however, e very fair business was transacted, and at a ser range of prices. Irish potatoes, both old and new, are firmer. Cabbage is more plentiful. but prices are steady. The stocks of fruit are ample to meet the demand, but not to break prices. Home-grown berries are coming on the market freely, and of good quality. Poultry, eggs and butter are unchanged. Eggs come in

dowly, but the demand is not as active as a few days ago. The flour market is quiet at unnanged prices.

The total grain market was dull. Wheat went if a cent and several grades of corn and oats a alf cent. Track bids ruled as follows:

### COOLER, FAIR WEATHER.

Increasing Cloudiness, and Probably Occasional Rains This Evening.

Forecast for Indianapolis and vicinity for the twenty-four hours ending 11 p. m. June 12-Cooler, fair weather; increasing cloudiness and possibly occasional rains Friday afternoon or evening.

General Conditions Yesterday-The high baramoteric area west of the Mississippi expanded and pushed the storm areas north and south beyond the borders of the country. The low barometric area off the New England coast is still visible. The temperature rose east of the Mississippi and it fell between the Rocky mountains and the Mississippi, except near the northern border. ## SUDDEN JUMP IN WHEAT

EARLY LOSS AT CHICAGO RECOV-ERED IN A FEW MINUTES.

Corn and Oats Firmed Up Somewhat in Sympathy, and Provisions Closed Higher in All Lines.

CHICAGO June 11 -A sudden jump in the French market of 21/2 cents set the local wheat market on edge and the early loss caused by the government crop report was regained, July closing practically unchanged. Corn closed 1/3c lower and oats 140%c lower. Provisions, on the contrary, made substantial advances.

Wheat attracted a good deal of attention,

the market ruling most active within a

to the extent which had been indicated by 6,800 bu. the State reports. That was the chief reason for the bearish interpretation given to it by the speculators and the opening, as might be expected, was decidedly weak. But while there was free selling at the start, the same was not as heavy as generally expected. The price soon rallied %c on good buying by several of the prominent sellers of late. Apart from the influence of the government report there was nothing | steady. else to seriously disturb the longs. Foreign markets opened lower, but this was expected in view of the decline here yesterday, and later showed some recovery, as a good export business was also reported. The market, however, was unset tled and fluctuations were rapid. July 1,666.67 opened irregular about 1c lower at 56%@ 56% sold up to 57e and off to 55%c. On 1,200.00 this break there was considerable covering, which carried the price back to 574c. The market had the wildest sort of fluctuations within the last half hour. Sinsational damage reports regarding the French crop owing to the rains caught the crowd short, and in covering July advanced to 53%c, broke in a few minutes to 5614 and rallied about as rapidly to 57%c, with September following at the regular difference. The fluctuations during the last half hour were so wild and sudden that merchants and brokers had considerable difficulty in executing orders. July closed excited at 57%@ Corn was dull and heavy with narrow

range of prices. The opening was weak, affected by the government crop report, and ruled lower till late in the session, when the final bulge in wheat carried prices upward. July opened 4c lower at 27%c, touched 27%c and closed steady at 27%c. Only a fair business was transacted in oats. The government crop report was the all important factor, its predictions of a tremendous crop creating a decided weakness. July opened %c lower at 17%c, touched 17%c and closed weak at the open-Provisions were fairly active all day. The

start was weak, influenced by the weak live stock market, but a good demand sprang up at the decline and this, with good packers' support, caused a steady upward tendency which was helped by the late strength in wheat. July pork closed 12½c higher at \$7.22½. July lard, .10@.12½c higher at 4.22½c. July ribs, .15c higher at Leading futures ranged as follows:

Open- High- Low-Wheat-June ..... Sept ..... Sept ...... 7.17½ 7.40 Ribs-July ...... 3.70

On the curb wheat experienced another flurry after the close. The price of July went up to. 58%c, and the last figure mentioned was 57%c. Puts on July ranged at 56%56%c and calls at

NEW YORK, June 11 .- The wheat market struck a gait late this afternoon that for rapidity of fluctuations and excited trading eclipsed anything seen in recent years. Enough wheat changed hands in fifteen minutes to make a good day's business ordinarily. The bearish government report had influenced the trade all day.

Brief Panie in New York.

and the crowd was heavily short when at 2 o'clock some one started a report that the exporters had bought 300,000 bushels, and that the French crop had been badly damaged by rain.
The news spread like wildfire. In a trice the pit was turned to bedlam as the short crowd fought to cover. Prices sailed up 2c a bushel within five minutes, followed by a sudden reaction that resulted in a cent loss, the whole movement of 3c taking place so quickly that it much resembled a cyclone which leaves its mark in an instant and is gone. The close was very nervous. Total transactions for the day were

FLING AT THE NEGRO

SCHOOL BOARD GIVES MRS. LANDO-NIA WILLIAMS A MINOR PLACE.

Favorite with One Year's Experience

Given Place She Had Earned-

Appointment of Teachers.

The school board clique last night turned

down one of the best colored teachers in the city school. Mrs. Landonia Williams is one of the colored teachers of the city who has been teaching for twenty-two years, and has made a most enviable record as a teacher. Superintendent Goss says there is not a better colored teacher in the city and this sentiment is echoed by Miss Cropsey, the assistant superinsomewhat irregular range of 3%c. The government crop report issued yesterday did not confirm damage to the winter wheat to the extent which had been indicated by cipalship was given to Marcellus Neal, who graduated from Indiana University. which is also Mr. Goss's alma mater. When the time came for the vote on the adoption of the report of the committee of the whole on the selection of teachers Mr. Blackledge arose and moved that Mrs. Williams be made principal of No. 19, instead of Mr. Neal. In support of this motion he spoke of her record in the schools, showing that she had twenty-two years experience and is acknowledged to be the best colored teacher in the city. He also spoke of the fact that Neal has had only one year's experience as a teacher.

"He may make a good teacher," Blackledge continued, "but his ability is yet to be tested. It seems to me that this is making promotions most too rapidly and without giving our older teachers their just dues." "I think it is small business," said Mr.

Roth, "for a member to make a motion of this kind at an open meeting, when he had an opportunity to do so at a closed meeting of the committee of the whole. Mr. Blackledge is also going pretty far in questioning the ability of Superintendent Goss and Miss Cropsey, who made these selections of teachers. Mr. Blackledge knows the trouble the board has had with Mrs. Williams. It is my judgment that the sooner the board learns to let the appointment of teachers alone and attend for next year, I would put it beyond the power of the board to interfere in this matter. How much does a member of this board know of the qualifications of a teacher? They seldom or never visit the schools. Mr. Blackledge has brought this matter up at this time for a purpose. He thinks it will have an effect on the election next Saturday. I don't care how many votes it changes or what effect it has on the election, I will not sanction any change of this kind."

"Mr. Chairman." said Mr. Blackledge. "Mr. Chairman," said Mr. Blackledge, when Mr. Roth paused a few moments, apparently not knowing whether he was done or not.

"Wait until I get through," was the angry retort of Mr. Roth. "I am waiting." In the meantime Mr. Scott had moved that the matter be laid on the table to be taken up at some future meeting, and the motion had been seconded, but President Martindale did not seem anxious to

interrupt Mr. Roth to put the motion, and so the argument continued. so the argument continued.

"I presented this matter because I thought it was just," said Mr. Blackledge, once more gaining the floor. "I made no allusion to anything personal or political. I did not bring it up here to make political plunder of it, and any statement of the kind by anyone is untrue, absolutely untrue. The superintendent and Miss Cropsey have both said to me that Mrs. Williams is the best colored teacher in the city, and they will not deny it, either. I stand here to say that there is not a word city, and they will not deny it, either. I stand here to say that there is not a word of truth in what Mr. Roth has said. (Mr. Blackledge pointed his finger and addressed these words particularly to Mr. Roth.) I did not come here to provoke this kind of an argument, but if Mr. Roth wants it and is willing to take the consequences, he may have it and all he wants of it."

Mr. Diackledge had been talking quite rapidly and with much emotion, and at this juncture paused to take fresh breath. During the pause President Martindale interrupted with the remark that the question before the board was on Mr. Scott's motion to lay on the table. The vote was taken and the motion carried. The report of the committee of the whole on the appointment of teachers was then adopted. It is as follows:
